

March Trail Session

Cuyahoga Valley Trail Council's March trail work will take place on the Salt Run Trail. We will be upgrading treadway and/or installing steps.

The Salt Run Trail dates back several decades and parts of it are beginning to show their age. Ruts are forming in the treadway in several places, and they are made worse by last summer's rains. The remedy is to grade the treadway properly so that it sheds water easily, and to provide other drainage features where needed. Once this work is performed, the trail surface should last many years. Most of the CVTC's work on the Salt Run Trail to day has been the construction and installation of bridges, steps, signs and re-routes. Our treadway work will be just as important and will require several sessions over the next two or three years to complete.

We will meet at the Pine Hollow Parking Lot on Quick Road on March 20, 2004.

Do not forget to submit all articles, photos, or any other information to the editor by February 21.
